

When stock is available, we offer whole, side, or mixed quarter plus processing. Pricing is \$3.47/lb hanging weight for side or mixed quarter and \$3.15/lb for a whole steer. This allows you to talk directly to the processor and, in the event of purchasing 2 quarters or a whole, naming specific cuts to your liking. A \$100 holding fee is required and the remaining on or before pickup day. A pickup date is about 10-14 days from butchering due to the amount of time for [Dry Aging](#). After ordering bulk you have the option to call the processor and specify your cuts. Processing gets paid directly to the processor at \$75/ (per quarter) kill and \$0.90 / lb (hanging weight) for Kryovac wrapping, butcher wrap is also available.

Our processor is:

Driftless Meats and More LLC
